6 **PURSUANT TO THE RALPH M. BROWN ACT.**
7

8 **WHEREAS**, all meetings of the Board of Directors of Mother Lode Job Training and its legislative
9 bodies are open and public, as required by the Ralph M. Brown Act (Cal. Gov. Code 54950 – 54963), so

14 requirements of Government Code section 54953(b)(3), subject to the existence of certain conditions and
15 requirements; and

16 **WHEREAS**, a required condition of Government Code section 54953(e) is that a state of emergency

23 imminent risks to the health and safety of attendees; and

24 **WHEREAS**, on March 4, 2020, Governor Newsom issued a Proclamation of a State of Emergency
25 declaring a state of emergency exists in California due to the threat of COVID-19, pursuant to the California

COMMUNITY ECONOMIC RESILIENCE FUND (CERF)

OVERVIEW: CERF's planning phase will establish regional, inclusive planning tables to develop blueprints and align resources for each region's economic future. These regional tables will result in recommended investments throughout the region that will support economic recovery from COVID-19, bolster equity outcomes, and facilitate the transition to carbon neutrality.

PROGRAM VISION: Deliver a sustainable and equitable recovery from the economic distress of COVID-19 that meets communities and regions where they are by supporting new regional plans and investing in strategies and projects that help diversify regional economies and develop or expand environmentally sustainable industries that create high-quality, broadly accessible jobs for all Californians.

Program Objectives

- Support the development of meaningfully inclusive regional planning processes that produce regional roadmaps for economic recovery from COVID-19 that prioritize the creation of accessible, high-quality jobs in sustainable industries.
- Invest in projects proposed by regional planning tables that respond to negative economic impacts of COVID-19 and meet criteria for equity, job quality, and sustainability, among others.
- Align and leverage state investments (e.g., High Road Training Partnerships, community capacity building programs), federal investments (e.g., Infrastructure Investment and Jobs Act), and philanthropic and private-sector investments in regions to maximize COVID-19 recovery efforts.

What Does Success Look Like?

- **Planning phase.** Inclusive, diverse, transparent, and accountable regional planning that results in a holistic strategy and recommended series of investments to recover from COVID-19, grow sustainable industries, diversify regional economies, and increase access to high quality jobs.
- **Implementation phase.** Projects throughout the region that advance globally competitive and sustainable industries and high-quality jobs with clear employment pathways for underserved and incumbent workers facing industry disruption after COVID-19.

Program Detail

1. **Phase 1—Regional Planning Grants:**
 - a. Create 13 Regional Collaboratives that will receive ~\$5M each.

- b. Establish new, inclusive regional planning tables starting in spring/summer 2022. Much like a “team of teams,” they will incorporate existing local efforts to address planning on a broader regional scale.
- c. Develop localized integrated recovery and transition plans that meet regions where they are. Plans will include analysis of industry sectors and labor markets, with actionable research and consultation from expert institutions.
- d. Embed locally-hired coordinators to facilitate ongoing engagement, partnership, and relationship-building activities with business, labor, community, government, education, economic development, federally and non-federally recognized tribes, and other key stakeholder groups.
- e. Support participants to increase access and broaden participation in the planning process.
- f. Provide technical assistance to guide convening, evaluation, research priorities, and other needs during the planning phase.
- g. Create holistic investment strategies that address disproportionate impacts of COVID-19 by diversifying the economy, and developing or growing sustainable industries that create accessible, well-paying jobs. Strategies should complement, incorporate, or expand on existing plans such as Comprehensive Economic Development Strategies (CEDs), as applicable and relevant.

2. Phase 2—Implementation Grants:

- a. Provide approximately \$500M in rolling, competitive grants from Fall 2022 to June 2024. Includes reserve funding for each region for competitive bidding.
- b. Fund projects in localities across the regions based on regional plans developed and criteria outlined.
- c. In cases with prior inclusive planning processes, regions may be eligible to apply for “early implementation” pilot projects. More details forthcoming regarding eligibility and criteria.
- d. Ensure projects support economic recovery and transition for populations and/or industries disproportionately impacted by COVID-19, while promoting economic diversification, sustainability, and equity. Outcomes will drive the growth of globally competitive, sustainable industries with well-paying, accessible jobs and bolster equity outcomes by race, ethnicity, gender, and geography.

Description:

This notice announces the opportunity to apply for funding under the Rural Public Health Workforce Training Network Program (RPHWTN). The purpose of this program is to expand public health capacity by supporting health care job development, training and placement in rural and tribal communities. The expected impact of this program is to enhance clinical and operational capacity in order to adequately address the population health needs of rural communities affected by COVID-19, including those dealing with the effects of long COVID1. The RPHWTN program addresses the ongoing critical need in health care facilities for trained public health professionals serving rural communities. This is done through the establishment of networks to develop formal training/certification programs in order to help professionals in the following workforce training tracks: Track #1 - Community Health Support Track #2 - Health IT and/or Telehealth Technical Support Track #3 - Community Para-Medicine Track #4 - Case Management Staff and/or Respiratory Therapists One of the central elements of the RPHWTN Program is to create stronger linkages between training programs and the health care entities that will ultimately employ or rely on these public health professionals. The four tracks selected for this program focus on activities that have direct benefits to the participating hospitals and clinics. For example, this includes workforce training directly related to the institution's operations. It also includes workforce training and support related to case management, care coordination and population health while also aligning with broader goals related to value-based care. Economic and health disparities, in addition to inadequate availability of rural health professional training sites, make it challenging to maintain a strong health care workforce in rural communities. As such, another important element of the RPHWTN Program is to develop workforce training programs that will promote diversity and inclusion in the workforce, which can help advance health equity in the community.^{2,3} The RPHWTN Program goals are to: 1) Establish a strong network of local health care and social service providers and educational institutions to create training programs focused on addressing the rural workforce needs in four critical public health tracks. 1 www.cdc.gov/coronavirus/2019-ncov/long-term-effects.html (Accessed on 11/29/21) 2 <https://www.nga.org/center/publications/creating-a-more-equitable-workforce-system-opportunities-for-governors-and-states/> Accessed on 10/6/21. 3 Achieving Equity in and Evolving Healthcare System: Opportunities and Challenges. <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC4724388/> Accessed on 10/6/21 2) Develop innovative workforce approaches to expand health care capacity affected by COVID-19 (including long COVID), such as cross-training (new and current) staff to help support business operations and equipping public health professionals with the skills to engage in population health. 3) Identify formal and sustainable pathways with rural health facilities to eventually employ or rely on the public health professionals who complete the RPHWTN funded training/education to obtain high-quality, good-paying jobs. 4) Design or expand culturally and linguistically appropriate workforce trainings that will enhance the competency of the rural health workforce in order to improve health care in rural communities. 5) Develop approaches in training current/existing staff to maximize their clinical/operational capacity.
